ACTive INquiry presents

NOT FOR PROFIT

A Forum Theatre Project in Leith creating a space to explore the causes of and alternatives to the public sector cuts.

The UK Coalition Government is embarking on a series of huge Public Sector Cuts to save £95 billion and reduce the deficit. Although they like to say that "we are all in this together" the reality is that these cuts are hitting the most vulnerable in society the hardest. How have we got into this mess? Are these cuts necessary or ideological? What can we do to protect our public services?

Over the past three months a group of Leith residents and visitors have been working with Active Inquiry to develop pieces of Forum Theatre exploring this issue. Forum Theatre encourages an audience to become involved by enabling them to change the action onstage!

This event will include performances, debates, input from anti-cuts organisations, tea, coffee and lunch to develop an Action Plan to put ideas raised on the day into practice.

The day is open to all Leith residents, visitors, elected officials and those that are interested in the issue.
